HOT DRINKS

Libertine Teas

Black

Roxy Black is a bright breakfast blend of Indian Assam tea with a rich flavour and coppery colour.

Full caffeine.

Luxe Grey

Vibrant, elegant and fragrant, Luxe Grey is our premium Sri Lankan black tea blended with bergamot. Citrusy and uplifting, this blend offers a smooth and silky cup of tea.

Full caffeine.

Lightning Green

A refreshing sencha green tea with a floral aroma and the flavour of fresh mountain air.

Ginkgo biloba, one of the most ancient herbs, stimulates the flow of blood to the brain, increasing alertness.

This blend was designed to make you feel bright and alive.

Runaway Rose

Rose is the ultimate soothing botanical, combined with a tiny touch of lavender to ease restlessness and lower the heart rate. Elderflower and vanilla offer a comforting mildly honey flavour and natural sweetness.

Runaway Rose is a delicate blend designed to relax and calm the heart. This blend will truly bring you back to yourself.

Minty Ohm

The refreshing fragrance of peppermint and stimulating qualities of rosemary helps the mind to focus, while native mānuka and lemon balm are a calming super-duo.

These herbs are cleansing as they contain high quantities of essential oils, and combine to support the liver as it filters and detoxifies blood as it circulates through the body.

Beautifully balanced, this is a tonic for the body and mind.

Kapow

This is a bold and warming blend with native kawakawa and chilli leading with a punchy, peppery flavour. The blend is balanced by the freshness of lemongrass and the rounded sweet finish of fragrant cardamon.

Sometimes described as a New Zealand version of chai, this blend combines herbs to strengthen digestion and help improve circulation. Antibacterial and antiviral properties help sustain good health.

Exhale Detox

Exhale is a therapeutic blend of six herbs that work to detoxify and tone the liver - dandelion root, milk thistle, nettle, peppermint, cinnamon and liquorice. Dandelion and milk thistle stimulate the production of bile, protecting liver cells against toxic damage and restoring the integrity of the liver. Nettle leaf aids elimination to reduce metabolic waste.

Coffees

Ripe fair trade organic or decaf made how you like it
